

Boost your field workforce productivity with DispatchPlus.®

When it comes to managing mobile workers, nothing is more critical than communication. With the DispatchPlus Workforce Management Solution from pdvWireless, it's easier than ever to connect with fieldworkers and boost productivity. Our cloud-based, workforce management solutions include high-productivity features designed specifically for dispatch-centric operations, running on the only nationwide network dedicated to business. Communicate and collaborate with ease and efficiency...no matter how demanding the environment.

- All digital, one-touch group-wide communications
- GPS and GeoFence tools to monitor location-based workers, manage workflow and improve workforce productivity
- One-touch Voice Documentation - Job Start, Job Complete, Arrival and more by pressing a button. Detailed voice reports can be submitted and shared with Location, Date and Time stamps eliminating the need for a dispatcher
- Color-coded status mapping helps optimize deployment with real-time updates on every worker for increased efficiency
- Web-based dispatch w/Intelligent Queuing™ and "Listened to" Verification to reduce backlog and on-hold time
- Compliance with USDOT Distracted Driver regulations

Reduce Costs

- Driver distraction risks and liabilities
- Insurance and overtime
- Customer writeoffs
- Fuel costs
- Cell phone costs

Improve Efficiency

- Reduce unnecessary calls into office
- Locate and dispatch nearest mobile worker
- Proof of activity status and completions
- Improved customer response

Increase Revenue

- Add one or more jobs per day
- Increase sales leads from mobile workers
- Increase ROI
